Abstract

No Alcohol Coin (\$NOALC) is a culture token deployed on BNB Smart Chain, built around sobriety and clarity as a shared identity. It uses alcohol — one of the most normalised and destructive substances in modern life — as the cultural counterpoint to a community defined by presence, discipline, and long-term strength.

\$NOALC operates as a fixed-supply, zero-tax BEP-20 token with a transparent distribution model and an open-source, verified smart contract. Its value proposition is not technical novelty. It is cultural belonging — the on-chain signal of a tribe that chose different.

This document describes the philosophy, token architecture, community mechanics, and ecosystem strategy of No Alcohol Coin. It makes no medical claims, no financial promises, and no guarantees of return. It describes a movement.

"\$NOALC is not a recovery product. It is an identity token for people who already chose clarity."

02 —

The Problem

Alcohol is not just a drink. It is the world's most accepted drug — and its most socially enforced one.

Modern culture is saturated with alcohol. Celebrations require it. Networking assumes it. Stress excuses it. The pub, the party, the work function, the first date — every social ritual has been constructed around a substance that quietly costs billions in healthcare, destroys families, and clouds the minds of a generation that could be building something better.

The numbers are not abstract. Alcohol is a leading cause of preventable death globally. It is linked to seven categories of cancer. It costs national economies hundreds of billions annually. And yet it remains the only drug where refusing it requires an explanation.

Crypto, at its worst, mirrors this. Easy dopamine. Short-term highs. Decisions made impulsively. Communities built on hype rather than values. \$NOALC is built in direct opposition to this — through cultural positioning, identity, and the kind of community that does not disappear when the price chart does.

ALCOHOL CULTURE REPRESENTS	\$NOALC REPRESENTS
Social pressure to participate	Freedom to choose differently
Short-term pleasure, long-term damage	Short-term discomfort, long-term strength
Clouded judgment and impaired thinking	Mental clarity as a competitive edge
Identity built on consumption	Identity built on discipline
Normalised addiction	Sobriety as culture, not exception
Forgotten nights and wasted days	Presence, memory, and compounding gains

03 —

Vision & Philosophy

The vision of \$NOALC is to create a crypto token that functions as a cultural artifact — a signal of identity as clear and deliberate as a lifestyle choice, a commitment, or a personal standard.

Alcohol-free living is growing. Sober curiosity, mindful drinking, and full sobriety are becoming mainstream choices — not just for those in recovery, but for high performers, athletes, biohackers, and anyone who wants to experience life at full resolution. \$NOALC is the on-chain home for this movement.

The brand is built for a specific tribe: those who quit drinking, those who never started, those who are sober-curious, and anyone who already knows that their best work — and best life — happens clear-headed.

Clarity Over Comfort

The most important decisions in life deserve a clear mind. Sobriety is not about missing out — it is about showing up fully.

Culture Over Utility

Identity tokens do not need to solve technical problems. They need to represent real ones. Alcohol is one of the most real problems in the world.

Presence Over Escape

The \$NOALC community does not run from discomfort. It sits with it, processes it, and comes out stronger on the other side.

Tribe Over Audience

Holders are participants in a movement — not spectators of a chart. The community is the product.

04 —

Cultural Narrative

Every lasting movement has a clear cultural counterpoint. \$NOALC has alcohol — the world's most normalized, celebrated, and silently destructive habit.

Not in a preachy, moralistic sense. \$NOALC does not lecture. It does not run a support hotline. It does not wave recovery flags or attach shame to anyone's past choices. What it does is create a cultural signal for people who have already decided — or are deciding — that alcohol does not belong in the life they are building.

"We don't preach. We don't shame. We don't make medical claims. We build a tribe of people who already chose clarity."

The Tribe

The \$NOALC community is defined by values, not demographics. The community includes anyone who chooses:

- Sobriety as a lifestyle — full abstinence or sober curiosity
- Performance and recovery culture — athletes, gym communities, biohackers
- Mental health and clarity — those who quit for their mind, not just their body
- High-performance identity — the 5AM crowd, the cold plunge community, the productivity obsessives
- Social sobriety — navigating alcohol-centred culture with confidence and without apology
- Anyone who sees a clear mind as a competitive advantage in work, relationships, and life

The Brand Voice

The tone of \$NOALC is direct but not aggressive. Clean but not sterile. Confident but not preachy. The aesthetic draws from performance culture and clarity — light, focused, sharp. The meme layer exists and is embraced. The philosophy beneath it is real.

Token Architecture

Technical Specification

Token Name	NØALC — Raise Yourself
Ticker Symbol	\$NOALC
Blockchain	BNB Smart Chain (BSC)
Token Standard	BEP-20 (ERC-20 compatible)
Total Supply	1,000,000,000 NOALC — Fixed, immutable
Decimals	18
Transfer Tax	0% — No buy tax. No sell tax. Ever.
Compiler	Solidity v0.8.34+commit.80d5c536
Source Code	Verified — BscScan Exact Match
Base Standard	OpenZeppelin ERC-20 + Ownable
Owner Address	0x114605a7EcE35716Bea9173C5959ba02B2f666e0
Contract Address	0xa223dC6241Ab785b3EA81318B098E06BD6527158
BscScan	https://bscscan.com/token/0xa223dC6241Ab785b3EA81318B098E06BD6527158

Token Distribution

ALLOCATION	%	TOKENS	PURPOSE
Liquidity Pool	60%	600,000,000	Market depth and stability — Locked
Community Rewards	20%	200,000,000	Challenges & Rewards Pool
Marketing	10%	100,000,000	Growth, partnerships, brand exposure
Team	5%	50,000,000	Core contributors
Future Burns	5%	50,000,000	Scarcity mechanics (community-voted)

Design Philosophy

The token mechanics are intentionally minimal. Zero tax means zero friction — every transfer executes exactly as expected, with no hidden deductions, no reflection mechanics, and no complex logic. The contract is built on the OpenZeppelin standard, verified publicly on BscScan, and readable by anyone.

Clean code is a feature. Complexity in token mechanics is almost always a concealment mechanism. \$NOALC chooses trust through transparency.

06 —

Community Layer

The community engine is the core of \$NOALC. It transforms passive holders into active participants through behaviour-driven reward cycles — the mechanism that creates genuine retention rather than pure speculation.

Sobriety is itself a challenge that millions undertake daily. \$NOALC makes that challenge visible, shared, and rewarded.

The 30-Day Clarity Cycle

Community rewards are distributed through structured 30-day challenge cycles. Each cycle has a defined theme. Participants engage by documenting their progress, supporting others, and maintaining their commitment throughout the cycle. The 20,000,000 NOALC Community Rewards Pool funds sustained engagement across these cycles.

Active Challenge Categories

Dry Month — 30 Days Alcohol-Free

The flagship challenge. No alcohol for a full cycle. Daily check-ins, community accountability, and proof of commitment. Open to everyone — long-term sober or first-time curious.

Sober Social Challenge

Navigate alcohol-centred social events — parties, networking, celebrations — without drinking. Document how it felt. Show others that sobriety doesn't mean missing out.

Mind & Body Reset

30 days of sobriety combined with one other positive habit: sleep tracking, cold exposure, daily movement, or mindfulness. Stack the clarity gains.

5AM Clear-Headed Club

Early mornings without a hangover. Structured starts, clean energy, and the discipline advantage that alcohol-free living creates. Document it, share it, own it.

1000 Days Sober Recognition

Special community recognition and rewards for members celebrating sobriety milestones — 100 days, 6 months, 1 year, and beyond. The community shows up for its longest-standing members.

Why Behaviour-Driven Communities Win

- Identity attachment forms beyond price action — holders stay through volatility
- Participants generate authentic, organic content that recruits new members
- Peer accountability creates real social bonds within the community
- Challenge cycles create recurring momentum rather than one-time hype events
- Sobriety milestones are universally respected and emotionally resonant — the content writes itself

Pumpnetic Ecosystem

\$NOALC is a cultural token within the Pumpnetic ecosystem — an internet-native infrastructure focused on decentralized projects, emerging digital communities, and on-chain identity.

Pumpnetic operates as the founding architecture behind \$NOALC: providing direction, brand structure, technical deployment, and strategic development.

Ecosystem Properties

- Internet-native: built for decentralized, community-first environments
- Chain-agnostic architecture — BSC as primary deployment, expansion-ready
- Open-source and publicly verifiable at every layer
- Culture-first: projects within Pumpnetic lead with narrative, not whitepaper jargon
- Pseudonymous by design — identity through work and on-chain transparency

Governance & Founder

About the Founder

No Alcohol Coin is developed under the direction of NodeFounder — the pseudonymous founder and ecosystem architect behind Pumpnetic. NodeFounder is focused on internet-native infrastructure, decentralized ecosystems, and emerging digital projects.

The project operates under a pseudonymous identity consistent with the broader ethos of decentralised, community-first crypto culture. Transparency is maintained through on-chain verifiability: the contract is open-source, distribution is public, and the mechanics are simple enough to require no trust beyond what the code provides.

Founder & Lead Architect	NodeFounder (Pseudonymous)
Ecosystem	Pumpnetic
Focus	Internet-native infrastructure, decentralized ecosystems

Governance Philosophy

At launch, \$NOALC operates with a straightforward and honest structure: a single founding architect, an open-source and immutable contract, and a community that governs itself through participation in challenges and culture rather than formal voting mechanisms.

Future governance expansions — including community votes on burns, treasury decisions, and ecosystem direction — are extensions of the same principle: clarity applied collectively.

09 —

Roadmap

The \$NOALC roadmap is built around three phases of evolution. Each phase is defined by outcomes, not timelines. Progress is measured by what exists, not what is promised.

Phase I — Foundation

Establishing the on-chain and community base.

- Token deployment and BscScan verification
- Liquidity provision and LP lock
- Website and brand identity fully live at noalc.pumpnetic.com
- Social channels established across X, Telegram, and Discord
- First meme wave and community seeding — sobriety culture meets crypto culture

Phase II — The Clarity Movement

Building the cultural layer.

- First 30-day Dry Month challenge cycle activation
- Community Rewards Pool distribution begins
- Micro-influencer and tribe outreach — sober curiosity, fitness, and mental health communities
- Meme competitions and coordinated community content
- DEX listing and chart visibility

Phase III — Expansion

Growing the ecosystem footprint.

- NFT badge system — Proof of Clarity (community-voted milestone badges)
- Sobriety milestone recognition program with special rewards
- Limited merchandise drops tied to challenge completions
- Community governance on future token burns
- Cross-chain exploration and liquidity expansion
- Partnership experiments within the Pumpnetic ecosystem and beyond
